

Domestic Specialty Metals Declaration

In accordance with the Defense Federal Acquisition Regulation Supplement, DFARS, Orbel Corporation certifies that all purchase orders with requirements for preference for Domestic Specialty Metals will be processed in accordance with DFARS 252.225-7014. These requirements will be flowed down to all sub-contractors as required at all tiers.

As defined in DFARS, Specialty metals means —

Steel —

- (A) With a maximum alloy content exceeding one or more of the following limits: manganese, 1.65 percent; silicon, 0.60 percent; or copper, 0.60 percent; or
- (B) Containing more than 0.25 percent of any of the following elements: aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, or vanadium;

Other Metal alloys —

- (A) Those consisting of nickel, iron-nickel, and cobalt base alloys containing a total of other alloying metals (except iron) in excess of 10 percent;
- (B) Titanium and titanium alloys; or
- (C) Zirconium and zirconium base alloys.

Any specialty metals incorporated in articles produced and delivered by Orbel Corporation under this requirement shall be melted in the United States or a qualifying country. A qualifying country means any country listed in subsection 225.872-1 of the Defense Federal Acquisition Regulation Supplement.

Respectfully Reviewed and Approved,
