

Certification of Compliance with REACH

Registration, Evaluation, Authorization and Restriction of Chemicals, REACH, requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight.

The European Chemicals Agency, ECHA, announced in January 2023 an updated list of the candidate 235 SVHC chemicals.

Orbel Corporation certifies the products listed below do not contain any of the SVHC's listed in excess of 0.1% by weight. Conformance applies to all products with the exception to cadmium plated products ordered specifically as such by the customer.

Orbel Corporation will continue to comply with REACH requirements and notify customers of any change in article content or status based on further amendments to the list of SVHC's.

Respectfully Reviewed and Approved,

Jon A. Raseley
